Why Do We Use HTML?

What is HTML?

HTML is short for HyperText Markup Language. Hypertext documents are interconnected by hyperlinks, which are typically activated by a mouse click. And

markup is what HTML tags do to markup and format the content. They mark it as a certain type of text (bold text, for example).

HTML documents are files that end with a .html or .htm extension. It is a globally predominant programming language for creating web pages. An HTML file typically contains only text, but it has the ability to reference images and multimedia. It allows the user to create and structure sections, paragraphs, headings, links, and images for web pages that are displayed on the World Wide Web. Usually, each website consists of different HTML pages, such as home pages, about pages, content pages, etc.

How to View HTML File?

HTML is the main markup language of the web. HTML consists of a series of codes/tags typed into a text file. The text is then saved as a html file, and viewed through any browser, such as Google Chrome, Safari, or Mozilla Firefox. The browser reads the HTML file and translates the text into a visible form and renders its content as the author has intended.

What is the Advantages of HTML File?

HTML is one of the best options to develop the webpage or website, which does not require any advanced programming for managing the website. Most important, HTML has many advantages over other publishing options currently available:

Main Advantages of HTML:

- Has enriched interactive content.
- Runs natively in every web browser.
- Easy to learn, use and edit/share by link/update content and linked content.
- Has a smaller file size allowing for a more direct translation of the content.
- Specifically designed for screen viewing giving it a more pleasing on-screen appearance.
- Uses progressive loading enabling access to the content as it's viewed rather than waiting until everything is loaded.
- Allows for selectable text, and even when text is rendered as an image, alternate text can be provided for screen readers.
