

How to Copy Text from A Kindle Book

I want to copy a favorite quote from one of my Kindle books instead of retyping the whole thing. Is it possible to copy text from a kindle book?

While you are reading a Kindle book, there is a strong possibility that you come across a section you want to back up or share with others. To help you out, here I would like to introduce 4 methods of copying text from a Kindle book.

- 1. Copy Text from Kindle for PC/Mac
- 2. Copy Text from Kindle Cloud Reader
- 3. Copy Text from Kindle App for Android/iOS
- 4. Copy Text from Kindle Highlights

1. Copy Text from Kindle for PC/Mac

It's easy to copy text from a Kindle book in Kindle for PC/Mac desktop. Here are the simple steps you should take.

Step 1 Download and run [Kindle for PC/Mac](#) on your computer and sign in with your Amazon Kindle account.

Step 2 In the library, double-click a book cover to download the book to the computer. Once it has been downloaded, the book will be automatically opened in the Kindle for PC/Mac.

Step 3 Select the text that you want to copy by clicking and dragging the cursor until the text is highlighted, and then release the click. Next, choose "Copy" from the menu that pops up. You can also use the usual keyboard shortcut:

Windows: Ctrl+C. Mac: Command+C.

Step 4 Paste the copied Kindle text elsewhere. When you paste the text, you'll see that Kindle has appended a citation to the end of your selection, including the author, book title, and page number or location.

Notice: There exists a copy limit for most of DRM-protected Kindle books in Kindle for PC/Mac. After this copy limit, it may not allow you to copy by telling you "your copy limit for this book has been exceeded." In this case, I'd like to share with you the most powerful Kindle DRM Removal and Kindle Converter--[Epubor Ultimate](#). With this tool, you can export the complete Kindle books from Kindle for PC/Mac without limitation.

2. Copy Text from Kindle Cloud Reader

Kindle Cloud Reader is a web app that allows you to read Kindle books online/offline in any compatible web browser. However, if you have ever tried to copy text from a Kindle book in Kindle Cloud Reader, you may find that there is no "Copy" option for you to do that. What you see are only "Highlight" and "Note". Yes, it is true. Kindle Cloud Reader does not allow you to copy text from a book.

Thanks to an open-source project in GitHub, we can make copying text from Kindle Cloud Reader possible.

Step 1 Visit your Kindle Cloud Reader read.amazon.com and sign in with your Amazon account.

Step 2 Create a new bookmark in your browser. You should be able to edit the name and URL.

Here I take my Google Chrome as an example. On the top bookmarks bar, right-click the mouse and a menu will pop up. Then choose "Add page".

Next. Give it a decent name (e.g. "KCR Plaintext") and paste the following as the URL (make it all one line):

```
javascript:(function(){ new_window=window.open();new_window.document.  
body.innerHTML =  
$('iframe').contents().find('iframe').contents().find('body').get(1).innerHTML; }  
);
```

Step 3 Click a book cover to open a Kindle book to read. If you find the text that you want to copy while reading, just click the bookmark which has been added in Step 2.

“Tis some visitor,” I muttered, “tapping at my chamber door —
Only this, and nothing more.”

Ah, distinctly I remember it was in the bleak December,
And each separate dying ember wrought its ghost upon the floor.
Eagerly I wished the morrow; — vainly I had tried to borrow
From my books surcease of sorrow — sorrow for the lost Lenore —
For the rare and radiant maiden whom the angels name Lenore —
Nameless here for evermore.

And the silken sad uncertain rustling of each purple curtain
Thrilled me — filled me with fantastic terrors never felt before;
So that now, to still the beating of my heart, I stood repeating
“Tis some visitor entreating entrance at my chamber door —
Some late visitor entreating entrance at my chamber door; —
This it is, and nothing more.”

Then a new page "Untitled -- about:blank" will be opened showing you the texts on that page which you were reading just now. Now you can successfully copy the text.

Pro Tip Copying text from Kindle Cloud Reader by taking the above method is bit complicated and you can only copy a small number of texts at one time. By using

[Epubor KCR Converter](#), you can export the whole book contents from Kindle Cloud Reader as plaintext.

3. Copy Text from Kindle App for Android/iOS

Copying text from [Kindle app for Android/iOS](#) is rather easy. Open a book in the Kindle app on your Android/iOS device and find the text you want to copy. Long-tap a word to select it, and drag the set of bounding handles to highlight all the text you want to copy. Then tap "Copy" in the toolbar that appears. All that's left is to tap and hold on the field where you want to paste the text.

taking any chances. He wasn't hooking

tory character and background checks.

When he returned to his apartment, he immediately looked through his email. He found one from his parents, inviting him to dinner the next night, two emails from the talent agency that booked him on modeling jobs, and one from an unfamiliar address.

As he read the latter, he realized it was a solicitation from a Brazilian model he'd met a month ago on a shoot in Chicago. The other man was going to be in town on a layover on his way to New York and wanted to know if Ethan was available for a quick meeting.

A model from Brazil? Better than Mark anytime.

Ethan smiled. Either they could grab a

4. Copy Text from Kindle Highlights

This method, I think, is a rather convenient way to copy text from a Kindle book. Actually, whenever you highlight a Kindle book in Kindle devices including Kindle app for PC/Mac/Android/iOS, Kindle E-ink device, Kindle Fire tablets, and Kindle Cloud Reader, the highlights you've created are automatically synced to your Amazon notebook where you can review and copy the texts.

Step 1 Highlight texts in a Kindle book on your Kindle devices.

Step 2 Go to your Amazon notebook read.amazon.com/notebook and sign in with your Amazon account.

Step 3 In the left column, all your Kindle books that have been highlighted are visible. Choose a book to check your highlight. Select the text that you want to copy.
