## Can't download books from Kindle Cloud Reader.

**Q:** I tried to download & pin a book from Kindle Cloud Reader, but it won't allow me to do that.

**A:** Some books especially those long novels can't be opened by Kindle Cloud Reader because Amazon Kindle has made some limitations on such books which must be opened with the Kindle app.

You can check whether your book can be opened by Kindle Cloud Reader or not in this way: On the product page of the Kindle book, find the "Deliver to" option under the "Buy now" button. If Kindle Cloud Reader is listed on the options from the

dropdown menu, it means that you can open and download it on the Kindle Cloud Reader.

If there is no option for delivering to Kindle Cloud Reader, it means this Kindle book cannot be downloaded from Kindle Cloud Reader, which is a limitation made by Amazon Kindle. Therefore, Epubor KCR Converter does not support such kind of books, for Epubor KCR Converter only convert Kindle books that can be downloaded via Kindle Cloud Reader.
