How to Downgrade Kindle for PC/Mac Manually or Automatically 2019

Why downgrade kindle for pc/mac to older version? As amazon has released its new kindle for PC/MAC version 1.25, its DRM scheme is much tougher than ever before. Kindle books downloaded via Kindle for PC/MAC 1.25 (or higher version) will be encrypted with the new kindle kfx DRM, namely Kindle KFX 2. For now there is not any software around the world can remove DRM from Kindle books downloaded via Kindle for PC/MAC 1.25 or even higher version. As every software is not perfect, we believe that we can find the direct way to crack kindle new kfx DRM sooner or later. For readers who are reading this article, we have provided the temporary solution to bypass the kindle kfx 2 which is downgrading kindle for PC/Mac to older version. In this way, you can get the older kindle kfx books and find many tools on the market to decrypt these kindle books and convert them to any format as you like.

Method 1. Manually Downgrade Kindle for PC/Mac
Method 2. Automatically Downgrade Kindle for PC/Mac
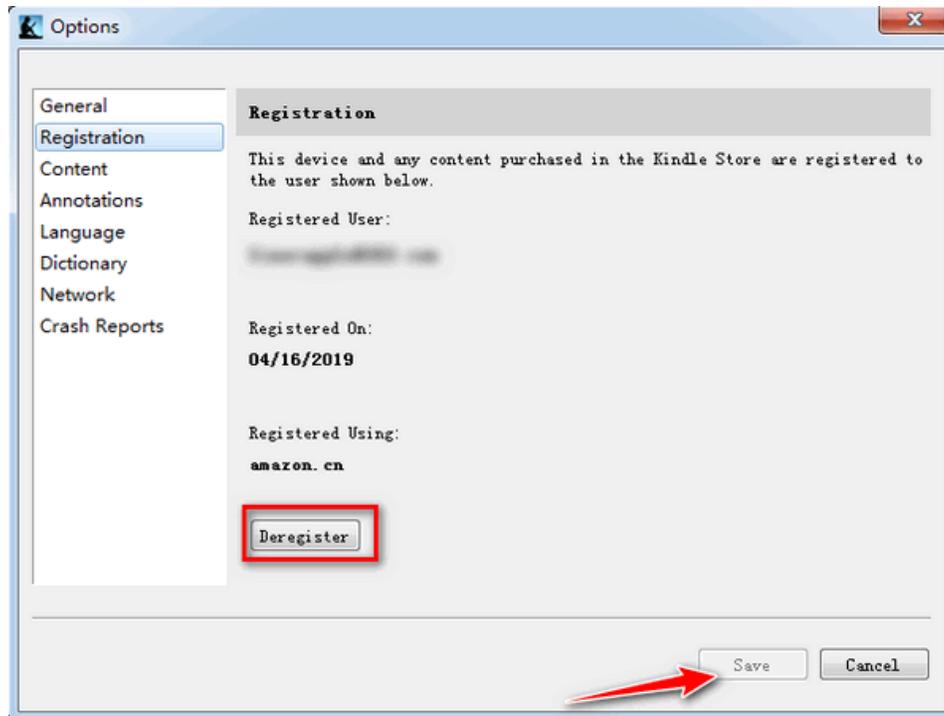

Method 1. Manually Downgrade Kindle for PC/MAC

Since the new kindle kfx DRM has been employed to kindle books from Kindle desktop version1.25, we only need to degrade our Kindle for PC/MAC to version older than 1.25. The latest kindle version before 1.25 for Kindle for PC is 1.24 while kindle for Mac is 1.23. In this part, I will guide you to downgrade Kindle for PC/Mac to older version manually.

Manually downgrade kindle for PC from 1.25 to 1.24.

1 Run Kindle for PC. Go to the top menu bar, select "Tools"-->> "Options".

2 The option window will pop up. Select "Registration" at the left side and click on "Deregister".

3 In the popped up window, tick " I understand….be removed from this device" and then click on "Deregister".

4 Uninstall Kindle for PC 1.25 and download **Kindle for PC version 1.24**.

5 Install Kindle for PC 1.24 and then uncheck the Kindle automatically update option by clicking on "Tools"-->>"Options"-->>"General"-->> uncheck "Automatically install updates when they are available without asking me."

The steps for downgrading Kindle for Mac is almost the same as downgrading Kindle for PC, but the older version for **Kindle for Mac is 1.23**. Referring detailed steps, please check **how to downgrade Kindle for Mac to version 1.23.**
