- 1. Must-Have Apps for eBook Lovers
- 2. Must-Have Apps for Audiobook Lovers

1. Must-Have Apps for eBook Lovers

Goodreads: Best Social Based Book App

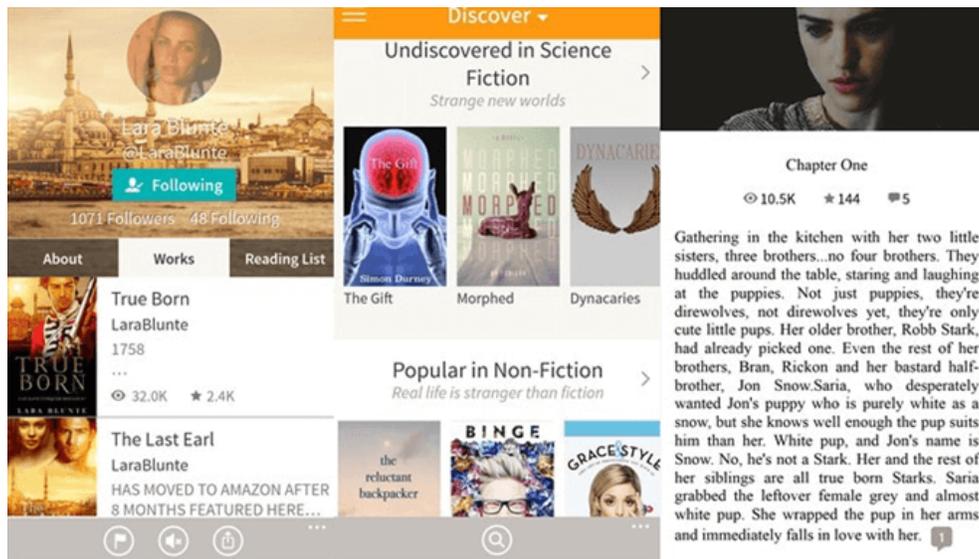

[Goodreads](#) is the world's largest site for readers and book recommendations. It is that site that helps people find and share books they love. They believe "The right book in the right hands at the right time can change the world." On Goodreads, there are a few things you can do. For example, you can see what your friends are reading and vice versa, track the books you're reading, have read, and want to read, check out your personalized book recommendations, and find out if a book is a good fit for you from our community's reviews, etc. Goodreads is available on iOS, Android, and browser. And its mobile app has all the features you love about the site and more.

Wattpad: The World's Most-loved Social Storytelling Platform

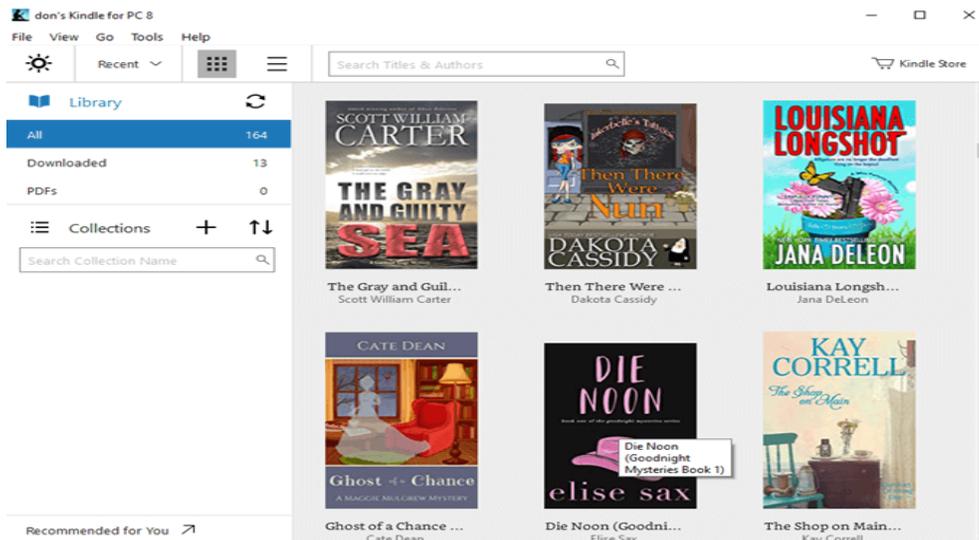

[Wattpad](#) is one of the best apps for book lovers and also the top choice for amateur writers. It is the world's most-loved social storytelling platform, which connects a global community of 90 million readers and writers through the power of story. The Wattpad app offers millions of stories, novels, poems, books. It even allows you to write your own story using the app, and self publish your stories online to join Wattpad's community of avid readers. It's a great platform

for writers to connect with their readers and vice versa. You can follow your favorite writers and can also comment on their stories and interact with them.

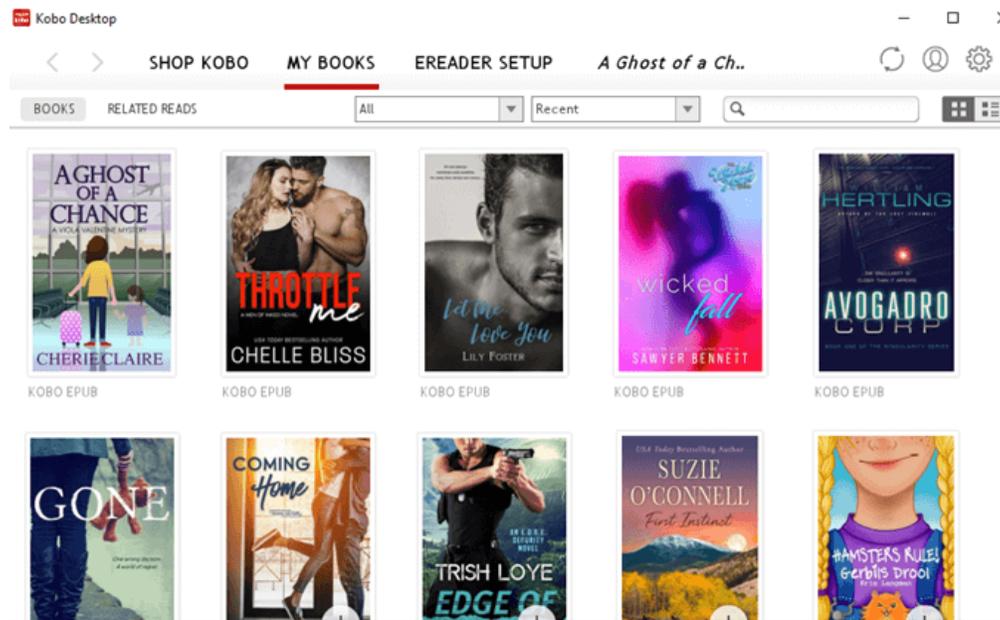

Kindle: The Best eBook App For Book Lovers

When it comes to eBooks, we have to mention the largest ebook distributor in the world -Amazon. [The Kindle app](#) is also one of the most popular, well-designed, and feature-rich eBook readers on the market, making it a one-stop-shop for all your reading needs. The best part about the Kindle app is its Whispersync function which can automatically sync your books across devices and remember where you left off. It also features highlighting, editing, customization of font size and reading mode, a built-in dictionary, and more.

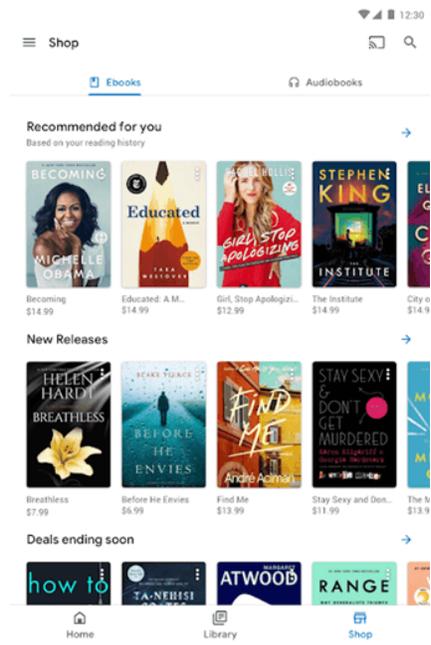

Kobo:Top Notch Book App

With more than 6 million titles to choose from, [Kobo](#) is one of the best apps that offers book lovers access to a wide array of genres. You'll find every type of eBook imaginable, from yesterday's classics to today's bestsellers, as well as expertly curated collection of audiobooks. The Kobo app comes with a built-in dictionary, plus note-taking and highlighting tools to mark those special passages you don't want to forget and even provides a seamless experience to allow you to start reading on one device and pick up right where you left off on another.

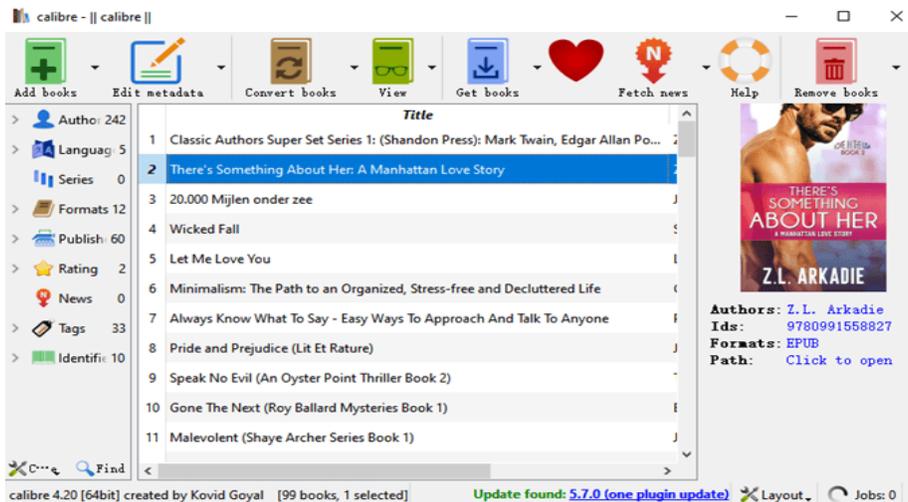

Google Play Books:Renowned eBooks App

[Google Play Books](#) is an ebook digital distribution service operated by Google. It is one of the largest online book stores in the world, which offers over five million titles. Just like the other ebook selling giants, Google Play Books also has an eBook reader app for reading books on the go and auto-sync books and notes between devices. The best side of Google Play Books app is that it comes with first-class designs and unique integrated Google Translate, Wikipedia, Maps, and other resources.

Calibre: The One Stop Solution For All Your eBook Needs

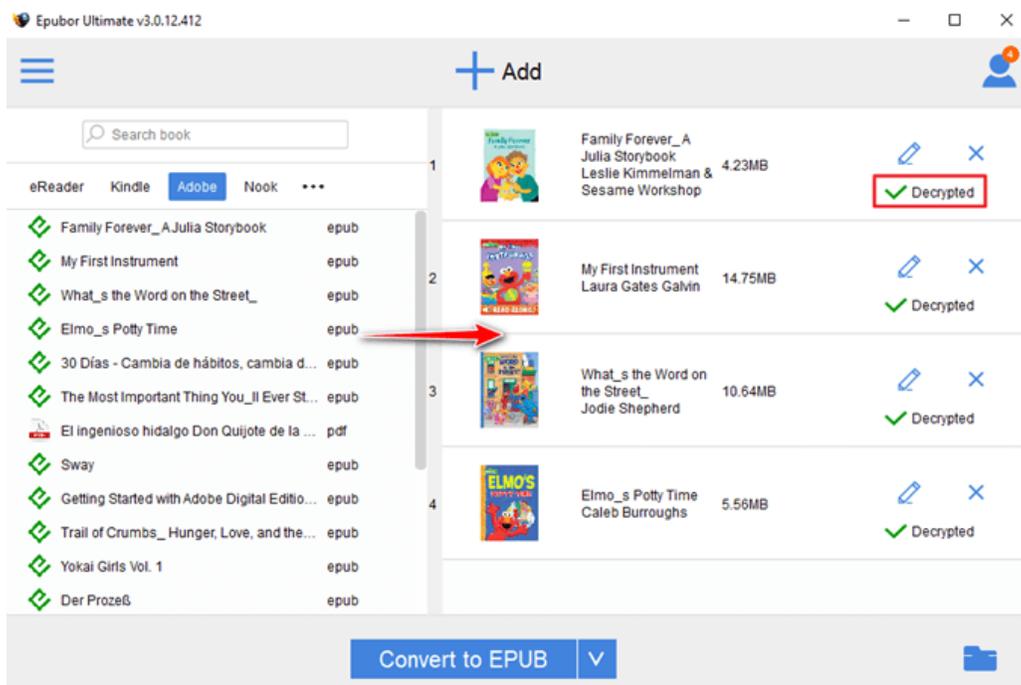

For book lovers, [calibre](#) is an outstanding and must-have tool that provides one stop solution for all your eBook needs. It'll allow you to do nearly everything, including organizing existing e-books into virtual libraries, displaying, editing, creating and converting e-books, as well as syncing e-books with a variety of e-readers. calibre has a built-in E-book viewer that can view all the major e-book formats. The E-book viewer is highly customizable and has many advanced features. Best of all, it can remove DRM from your Kindle/Kobo books by importing the De-DRM plugin. It is arguably the most comprehensive ebook software you can ever get.
